## ABSTRACT

This document reports the results of a survey conducted to determine (1) the types of academic calendars being used in colleges and universities in the U.S.; and (2) the changes taking place. Six types of calendars are defined: the traditional semester calendar; the trimester calendar; the 4-1-4 calendar; and other calendars. The survey was very timely, for the results show that a calendar revolution is taking place. Of the 2,475 respondents, 1,130 were changing their academic calendars from the traditional semester calendars, and the majority of these institutions were changing to either the early semester calendar or the 4-1-4 calendar. The data are listed in tables by institution and state. (HS)

## Introduction

In the spring of 1971 the Calendar Committee of AACRAO undertook a survey to obtain information solely about the academic calendars used by the institutions of higher education in the United States of America. The committee had two objectives for the survey: (1) to determine the types of calendars being used, and (2) to determine the changes taking place.

Six types of calendars were defined:

1. **Traditional Semester:** College year divided into two equal semesters. The first semester starting about the 10th of September and ending about the 25th of January; the second semester starting about January 30th and ending early in June. Semester hours are used for credits.
2. **Early Semester:** College year divided into two semesters, usually the first semester slightly shorter than the second. The first semester starts about August 30th and ends about December 21st; the second semester starting about January 15th and ending about May 20th. Semester hours are used for credits.
3. **Quarter:** College year divided into 3 equal parts of about 12 weeks each, with a great variation about the starting and ending times. Quarter hours are used for credits. (Three quarter hours equal two semester hours.)
4. **Trimester:** The college year is divided into 3 equal parts of about 16 weeks each, the first trimester ending just before Christmas, the second trimester ending about April 15th and the third trimester ending about August 20th. The semester hour is used for credits.
5. **4-1-4:** The college year is divided into two equal terms of about 16 weeks each plus a 4-week term between the two. The first term ends just before Christmas. The second term starts February 1st. The month of January is used for the 4-week session, called by several names: interterm, interim, winter-session, etc. (Interim is probably the most common name.) The 4-1-4 title means 4 months, one month, 4 months. 4-1-4 also means 4 courses, one course, 4 courses. The unit is used for credits. All courses are the same credit value; a full load is 4 courses. In the interim only one course is studied.
6. **Other:** Calendars that are not defined by any of the five regular types of calendar.

A one-page questionnaire, printed on the back of a letter written by Max B. Rosselot, chairman of the Calendar Committee, was prepared in

January, 1971. Early in February, more than 2600 of the questionnaires were mailed from the Oberlin, Ohio, offices of The National Association of College Stores to the institutions, 2-year and 4-year, accredited and non-accredited, listed in the 1969-70 *Higher Education EDUCATION DIRECTORY*, U.S. Department of Health, Education and Welfare. The last week in March, "second requests" were sent to about 600 institutions whose responses had not been received. In May about 100 "third requests" were mailed out. All responses were mailed to Doane College, Crete, Nebraska.

## The Report

Between the dates of February 8 and August 28, 1971, a total of 2,548 questionnaires were received. Of these 2,548, however, 44 were not usable for various reasons, and 29 others were from institutions that had either closed in 1970-71 or were closing in June, 1971. Thus, the report is based upon replies from 2,475 institutions from 50 states and the District of Columbia.

The survey was very timely, for the results show that a calendar revolution is taking place. There is a definite trend away from the traditional semester. Table I shows the distribution of the changes by calendar types:

**Table I**

The number of institutions that changed calendars		Previous <sup>1</sup> years compared with 1971-72
From	To	
1. Traditional Semester	Types 2, 3, 4, 5, 6	1130
2. Early Semester	Types 1, 3, 4, 5, 6	77
3. Quarter	Types 1, 2, 4, 5, 6	137
4. Trimester	Types 1, 2, 3, 5, 6	63
5. 4-1-4	Types 1, 2, 3, 4, 6	9
6. "Other"	Types 1, 2, 3, 4, 5	28
Types 2, 3, 4, 5, 6	1. Traditional Semester	179
Types 1, 3, 4, 5, 6	2. Early Semester	822
Types 1, 2, 4, 5, 6	3. Quarter	250
Types 1, 2, 3, 5, 6	4. Trimester	58
Types 1, 2, 3, 4, 6	5. 4-1-4	241
Types 1, 2, 3, 4, 5	6. "Other"	109

<sup>1</sup> Previous does not necessarily refer to the calendar type used in 1970-71, the year immediately preceding the present 1971-72 college year. The institution may have been using the present calendar type for the past several years. 'Previous' means the calendar type used before the change to the present type.

Table II shows the calendar distribution by years:

**Table II**

	Previous <sup>2</sup> To 1967-68	1967-68	1968-69	1969-70	1970-71	1971-72
1. Traditional Semester	1756	1517	1379	1207	895	637
2. Early Semester	71	205	308	438	680	860
3. Quarter	360	467	514	535	539	542
4. Trimester	81	86	79	75	73	77
5. 4-1-4	6	39	75	118	186	236
6. "Other"	42	64	72	87	102	123

It is interesting to note the decrease in the number of institutions using the Traditional Semester and the increases in the Early Semester and the 4-1-4. As noted in the definitions, page 1, these two calendar types share two features: (1) the starting date is usually late in August and (2) the first term ends just before the Christmas recess.

Institutions of all sizes are involved with calendar change. For purposes of the survey, the label "big" was assigned to 104 institutions with enrollments between 10,000 and 20,000; 56 institutions with enrollments over 20,000 were labeled "large." Table III shows the number of these two groups making changes:

**Table III**

Category	Number in survey	Change effective 1970-71	Change effective 1971-72
"Big"	104	21	22
"Large"	56	6	5

(As this report goes to press the author is aware that at least a dozen of the big and large institutions are either having discussions about changing their calendars for 1972-73 or have already made the decision.)

<sup>2</sup> Previous does not necessarily refer to the calendar type used in 1966-67, the year immediately preceding the 1967-68 college year. The institution may have been using the 1967-68 calendar type for several years. 'Previous,' as used here, means the calendar type used before the change to the 1967-68 type.

Table IV is a list of 2,475 institutions arranged by states. The calendar types are defined in the Introduction. In the number of years column, the integers 1, 2, 3 . . . . 9 are exact years, but 10 means 10 or more years.
